Vestas American Wind

Accepting RFQ's for Port Operations and Stevedoring Services starting from July 22 through Aug 1, 2025.

Vestas is looking for supplier(s) to provide port operations and stevedoring services at the South Brooklyn Marine Terminal (SBMT) in New York. We invite all interested and registered suppliers with NYSERDA Offshore Wind Supply Chain Database to participate in learning more about this opportunity. The stevedoring scope of work includes the following

- House gang for unloading and movement of goods (Baseline is 10-hour day shifts Mon-Sat)
- Spotters for shifting components (Baseline is 10-hour night shifts Mon-Sat)
- On-call crew for all load in and load out activities
 - Port Calls load in for Blades, Towers and Nacelles
 - Port Calls Load out for Barges
- Warehouse Support
- Provide and operate any forklifts, aerial lifts, and other equipment as necessary for performance of the scope of work (include as breakout rental cost)
 - 16 ton forklift
 - 5 ton forklift
 - Equipment to shift and offload containers
 - Manlifts or cherry pickers as needed
- Other Various duties as required by Vestas

* All subcontracting of any work will require Vestas's approval

All vendors must have a safety record that meets project requirements and comply with ISO 9001, 14001, and 45001 certifications, as well as all ANSI and OSHA standards. Additionally, vendors must meet all state, federal, and project-specific training requirements. If your company meets these criteria and is interested in participating in this RFQ please email Colette McCool, comol@vestas.com with your company information. Please note that your company will need to register as a supplier with Vestas and sign a Non-Disclosure Agreement (NDA) to participate.
