

News release from Vestas-American Wind Technology

Portland, 21 November 2023

Vestas secures 239 MW order for V163-4.5 MW wind turbines in the USA

Vestas has received a 239 MW order to power an undisclosed wind project in the USA. The order consists of 53 V163-4.5 MW™ wind turbines.

The orders include supply, delivery, and commissioning of the turbines, as well as a multi-year Active Output Management 5000 (AOM 5000) service agreement, designed to ensure optimised performance of the asset.

Turbine delivery begins in the fourth quarter of 2024 with commissioning scheduled for 2025.

About Vestas

Vestas is the energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 166 GW of wind turbines in 88 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 146 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas' more than 28,000 employees are bringing the world sustainable energy solutions to power a bright future.
