

News release from Vestas-American Wind Technology

Portland, 22 December 2023

Vestas secures 401 MW order for large-scale wind farm in Arizona, USA

Vestas has received a 401 MW nameplate capacity order to power the West Camp wind project in Navajo County, Arizona owned by The AES Corporation. The order consists of 89 V150-4.5 MW turbines.

The order includes supply, delivery, and commissioning of the turbines, as well as a multi-year Active Output Management 5000 (AOM 5000) service agreement, designed to ensure optimised performance of the asset.

“This is a significant order that represents a key milestone for the state of Arizona, and we look forward to partnering with AES to continue the state’s growing acceleration of clean energy, particularly with one of the industry’s highest producing low wind turbines,” said Laura Beane, President of Vestas North America.

Turbine delivery begins in fourth quarter of 2024 with commissioning scheduled in 2025.

About Vestas

Vestas is the energy industry’s global partner on sustainable energy solutions. We design, manufacture, install, and service onshore and offshore wind turbines across the globe, and with more than 166 GW of wind turbines in 88 countries, we have installed more wind power than anyone else. Through our industry-leading smart data capabilities and unparalleled more than 146 GW of wind turbines under service, we use data to interpret, forecast, and exploit wind resources and deliver best-in-class wind power solutions. Together with our customers, Vestas’ more than 28,000 employees are bringing the world sustainable energy solutions to power a bright future.
