

Who is Vestas?

Learn about the global leader in wind energy

What does Vestas do?

Vestas is the largest wind turbine manufacturer in the world and the global leader in sustainable energy solutions.

With a vision to become the global leader in sustainable energy solutions, everything we do revolves around the development and deployment of sustainable energy solutions. Every day, our 5,000 U.S. & Canada employees help create a better world by designing, manufacturing, installing, developing, and servicing wind energy and hybrid projects all over the United States & Canada.

Where can I find Vestas in the U.S. and Canada?

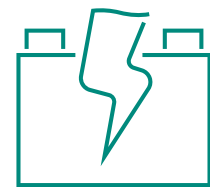

Our North American market is served from our Portland, Oregon headquarters with an offshore headquarters in Boston, Massachusetts, and we supply turbine components from our two factories in Colorado.

You can find our +26,000 turbines across 36 states in the U.S. and 9 provinces in Canada.

Each year, Vestas spends billions of dollars across the U.S. & Canada supply chain with thousands of suppliers.

We currently have 45,000 MW installed and 40,000+ MW under service in the U.S. and Canada.

Wind. It means the world to us.™

Vestas®

Where did Vestas begin?

125 years of expertise, willpower, and passion have shaped who Vestas is today. The journey begins in 1898 in Denmark and continues across the globe, with all our experiences preparing us to harness the power of modern energy as the world moves further into the 21st century.
